EXPERIENCE

Senior Manager, Product Management, AI/ML | Duetto

San Francisco, CA | April 2025 – Present

Set ML/AI vision and strategy for org of 15; shipped innovative RL engine and 3 0-to-1 AI applications at scale

- Defined and executed the AI roadmap to transform static revenue workflows into an autonomous ML-powered pricing platform; shipped RL engine to 40% of user base in 6 months with 10% RevPAR lift and 10x throughput
- Launched Profit-Aware Pricing (0-to-1), a novel ML application extending the product suite from rate-only to total profit optimization; scaled from 0 to 7K+ properties with 15% margin lift, 3x-ing addressable surface
- Delivered Group-Aware ML Pricing (0-to-1), extending algorithmic pricing to conference, group, and enterprise bookings for the first time; captured previously unpriced demand segments and grew group-segment RevPAR by 8%
- Shipped agentic AI with explainability that autonomously executes revenue decisions with relentless product quality; drove adoption from 20% to 60%+ and lifted retention by 10%, outperforming IDeaS and Lighthouse
- Replaced batch linear programming with real-time RL infrastructure, 4x-ing pricing optimization at 20% of cost and 10% of latency; landed enterprise clients (Hyatt, B&B Hotels) requiring faster pricing and granular control
- Mentored 4 product analysts and 2 junior PMs; hired Analytics Manager to scale team capacity and operational rigor

Manager, Product Management | Capital One Shopping

San Francisco, CA | Dec 2023 – Dec 2024

P&L owner (\$8–12M); led 10-person cross-functional team, drove 30% ARR growth via quantitative analysis

- Championed Capital One Shopping's first mobile surface (iOS Safari Extension), addressing deep consumer needs; sold the bet to leadership, growing from zero to 4M+ users and establishing a net-new acquisition channel
- Rebuilt merchant onboarding from static data feeds to AI-powered ingestion of unstructured product data, scaling coverage from 100 to 60K+ merchants and cutting onboarding time from 4 days of manual QA to under 1 hour
- Designed personalized recommendation engine using multi-armed bandits, analyzing quantitative and qualitative data; lifted CTR by 25% and revenue per active user by 12% across email, SMS, and on-page surfaces
- Built attribution and incrementality frameworks from the ground up; trained a product ops function for merchant issues at scale and drove 19% conversion lift across 400+ partners (eBay, DoorDash, Walmart) during peak periods

AI Product Manager II | J.P. Morgan Chase & Co. (Digital Group)

San Francisco, CA | June 2021 – Dec 2023

Promoted from PM I; led 15-person ML team building AI search, risk, and automation for 40K+ financial enterprises

- Developed ML-powered semantic search engine, replacing manual risk review for 40K+ commercial banking clients; elevated search relevance and click engagement by 35% through ML-powered ranking and intent-based discovery
- Re-platformed KYC verification from legacy in-house build to integrated third-party solution, cutting processing from days to under 30 seconds; redesigned AI-driven onboarding flows that lifted user activation by 20%
- Deployed ML-powered expense automation and LLM-driven validations across enterprise banking workflows; drove 25%+ platform engagement lift and 8% incremental revenue through targeted workflow optimization

Technical Product Manager | Wayfair

Boston, MA | Oct 2020 – June 2021

Built 0-to-1 routing engine across 20K+ suppliers and 20M+ shipments; scaled from 1 hub to 8 domestic + intl

- Identified root-cause supply chain failures through data-driven analysis; pivoted from dashboard build to an innovative constraint-based optimization engine, reducing failure rate by 20+% and improving delivery by ~20%
- Reduced shipment shrinkage by ~15% and improved delivery performance by ~20% across domestic and intl hubs

SKILLS

Technical: Python, SQL, Reinforcement Learning, LLMs/RAG, Agentic AI, NLP, Ranking & Rec Systems, MLOps

Product: 0-to-1 Development, Vision & Strategy, Cross-Functional Leadership, Platform Strategy, Innovation

EDUCATION

UC Berkeley – Dual BA in **Data Science** (ML, AI, Econometrics) and **Economics**

Berkeley, CA

Stanford University – **Y2E2 Cleantech Scholar** • Cleantech and systems innovation fellowship

Stanford, CA
